

## CHUGGINGTON UPCYCLED TRAIN CRAFT

This simple paper roll craft uses recycled materials to make a paper train! Everything you need to make it is probably already in your recycling bin!

### MATERIALS NEEDED:

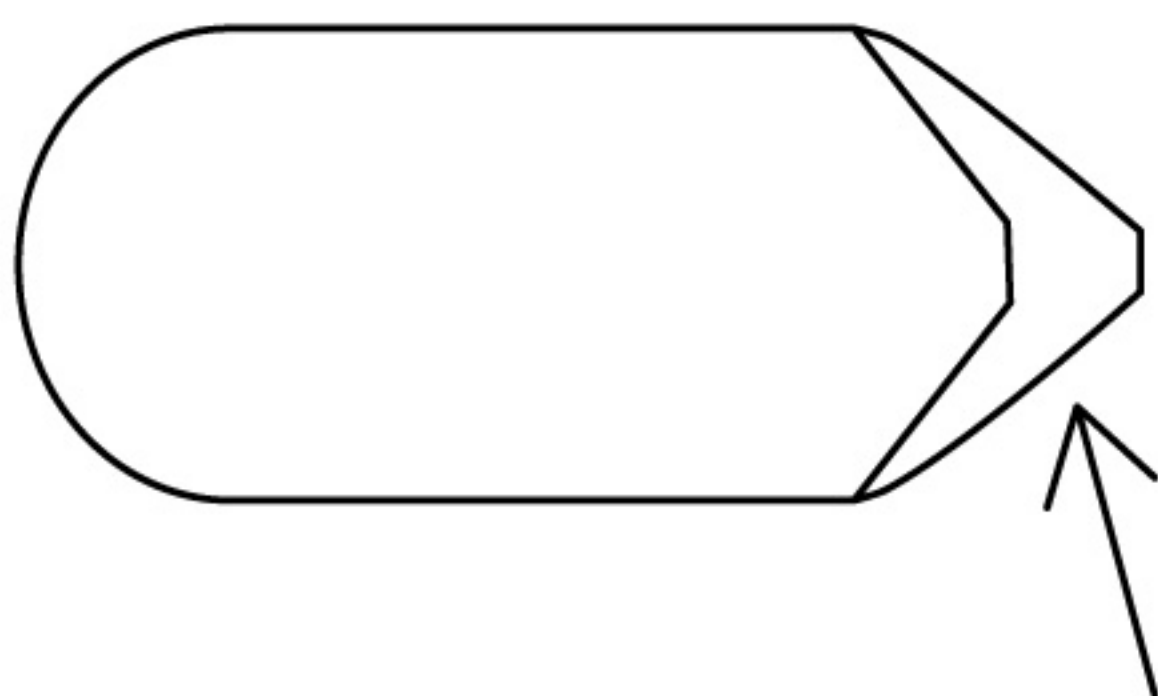

- 6 Toilet Paper Roll Tubes, 2-3 Paper Towel Rolls or 6 Craft Rolls
- 1 Skinny Cardboard Tube
- 20 Lids (milk containers, water bottles)
- Paint
- A Paint Brush
- Yarn
- Hole Punch or Something to Make a Hole in the Cardboard Tube
- Hot Glue Gun
- Scissors

# 1

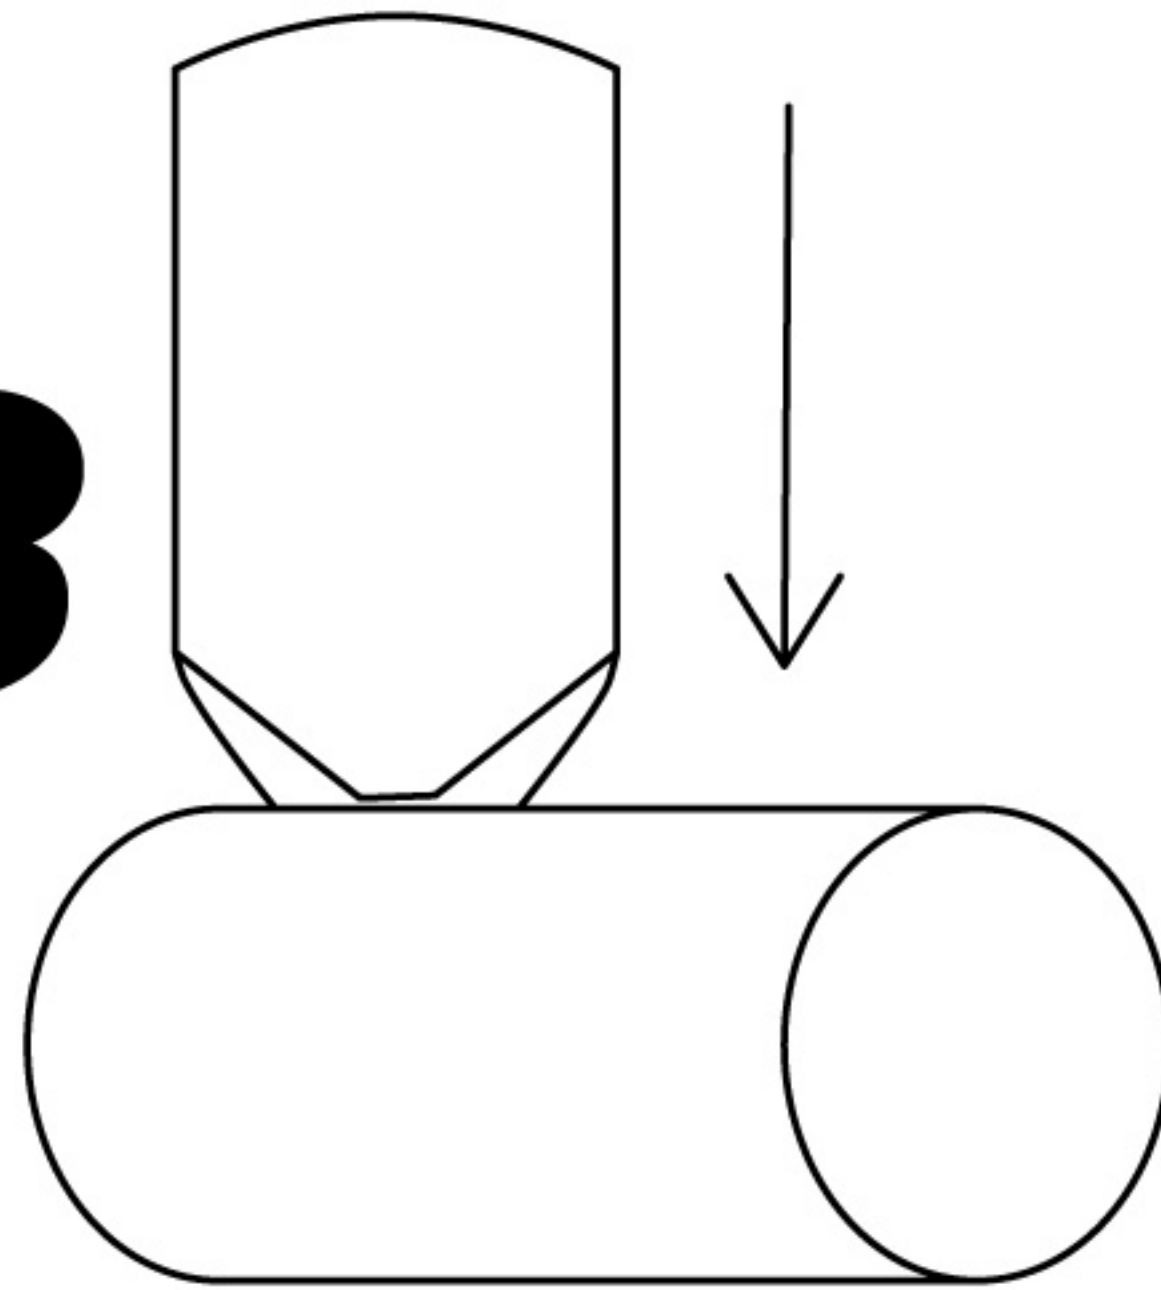

Paint your cardboard tubes various bright colors.

# 2

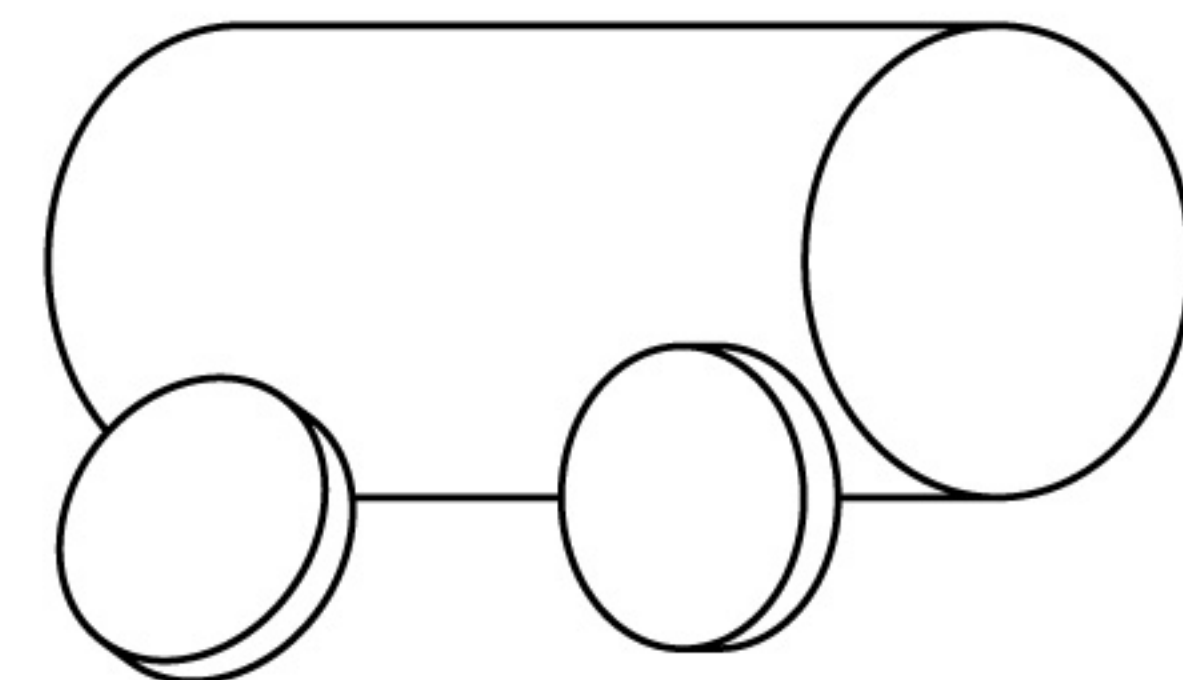

Cut C-shapes out of one of the tubes to create the top of the engine.

# 3

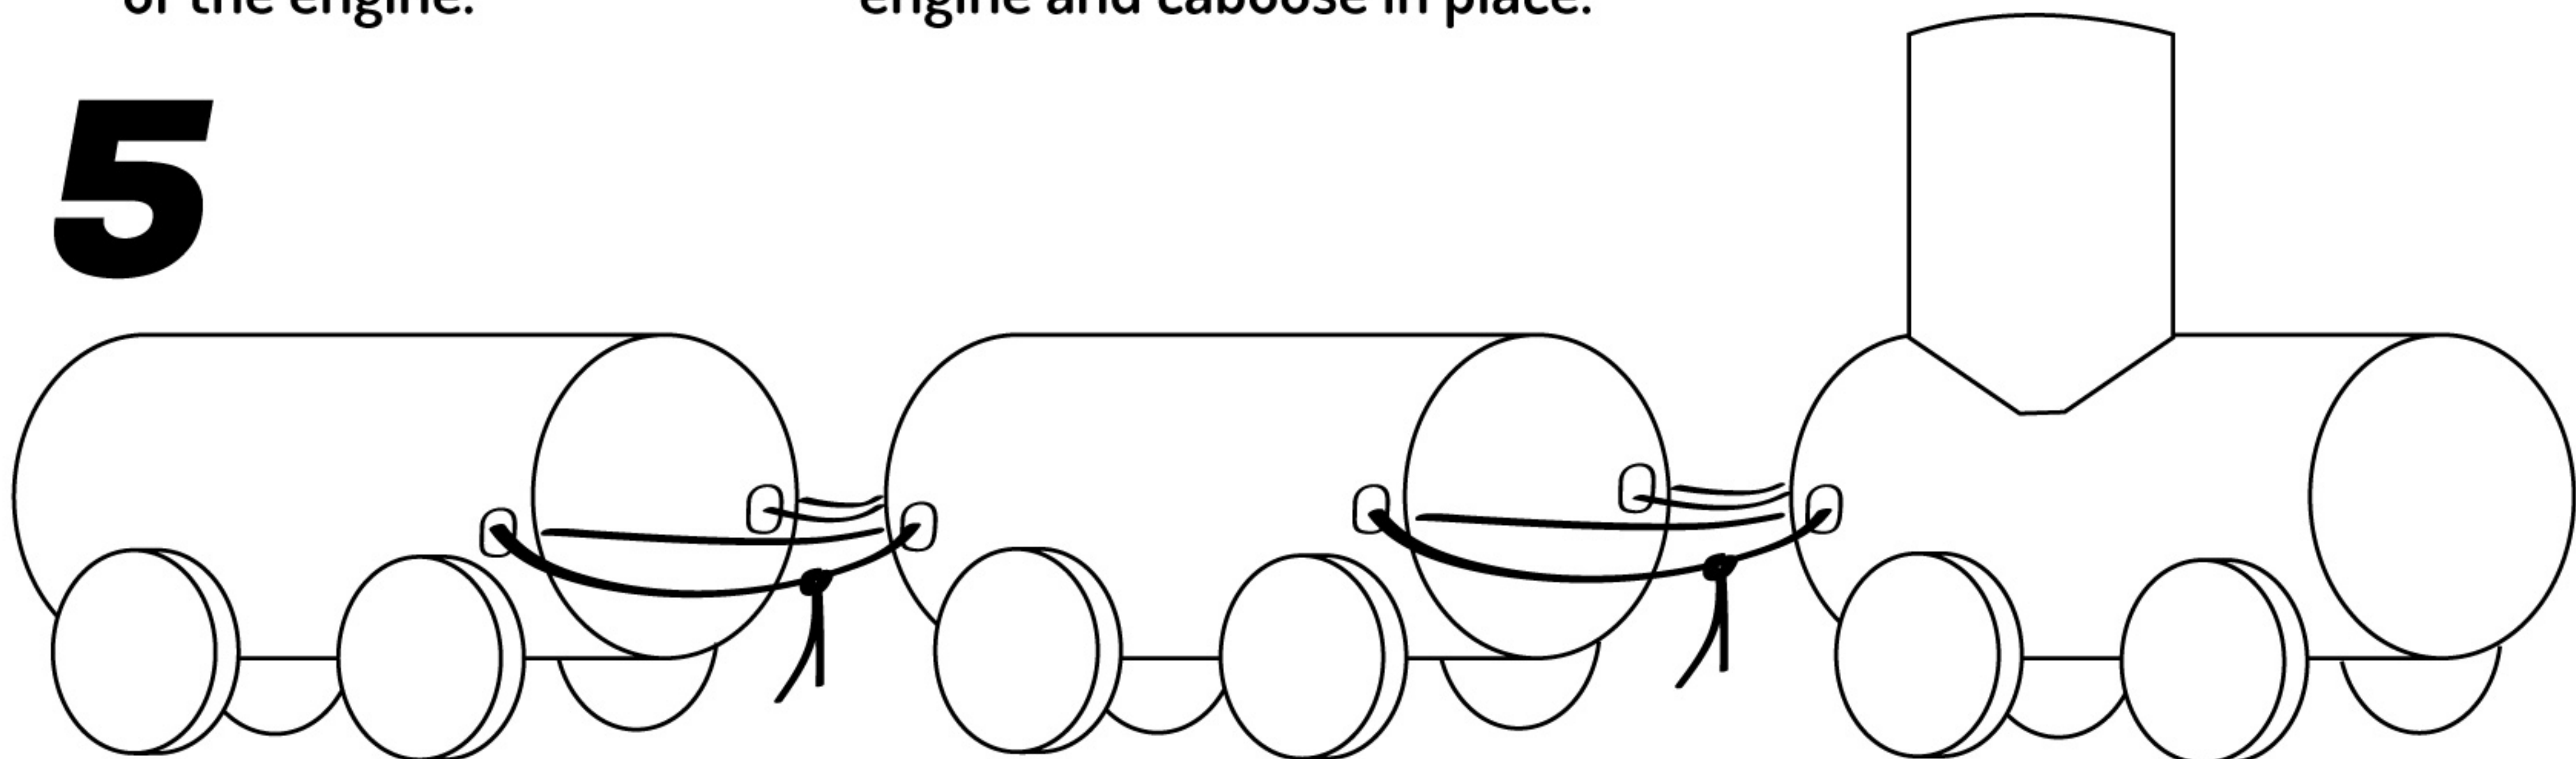

Once dry, hot glue the cardboard roll tops of the engine and caboose in place.

# 4

Hot glue four plastic lids on each cardboard tube

# 5

Punch small holes into the 'corners' of each cardboard tube for the yarn. Weave the thread through one tube and another tube to attach two tubes together. Tie a knot. Continue the process until all of the cars of the train are connected.
